Survey/Study of HIV Incidence

2326. SHRI TRILOKI NATH CHATURVEDI:
DR. MURLI MANOHAR JOSHI:

Will the Minister of HEALTH AND FAMILY WELFARE be pleased to refer to answer to Starred Question 704 given in the Rajya Sabha on the 25th May, 1995 and state:

(a) whether Government have made any survey or study of the incidence of HIV among the population of each of the States of North-East and if so, what are the facts in this regard; if not, whether Government will undertake a survey to assess the gravity of the situation;

(b) the State-wise allocation made to control drug abuse and HIV in NE during each of the past four years and details of assistance/grants given to NGOs during the same period; and

(c) what effective steps, legal and otherwise, have been taken for the HIV safety certification of blood collected and supplied by the Blood Banks?

THE MINISTER OF STATE IN THE MINISTRY OF HEALTH AND FAMILY WELFARE (DR. C. SILVERA): (a) Yes, Sir. The Sentinal survey has confirmed HIV infection among intravenous Drug users in the North Eastern region. Some spread of infection among antenatal mothers has also been notices.

(b) A statement is enclosed (*See* below).

(c) Regulatory mechanisms have been tightened and blood can now be given for transfusion only after having been tested free from HIV, hepatitis, malaria and syphilis. For the purpose 150 Zonal Blood Testing Centres have been established and linkages have been provided to all blood banks throughout the country. Rapid HIV Test Kits are also supplied at district level hospitals for testing blood before transfusion.
